NUMBERING RESOURCE UTILIZATION AND FORECAST REPORTS AND LOCAL NUMBER PORTABILITY REPORTS TO BE PLACED INTO THE RECORD, SUBJECT TO PROTECTIVE ORDER

WT Docket No. 15-262

SprintCom, Inc. (“SprintCom”), a wholly-owned subsidiary of Sprint Corporation (together with SprintCom, “Sprint”), Shenandoah Personal Communications, LLC (“Shentel PC”), a wholly-owned subsidiary of Shenandoah Telecommunications Company (together with Shentel PC, “Shentel”), and NTELOS Holdings Corp. (“NTELOS” and together with Sprint and Shentel, the “Applicants”) have filed applications pursuant to sections 214 and 310(d) of the Communications Act of 1934, as amended,¹ seeking Commission consent to the assignment to Sprint from NTELOS of Advanced Wireless Services (“AWS-1”), Broadband Radio Service (“BRS”), Personal Communications Service (“PCS”), Common Carrier Fixed Point to Point microwave, and Private Point to Point microwave licenses) (collectively, the “Applications”). The subject licenses cover portions of Kentucky, Maryland, North Carolina, Ohio, Pennsylvania, Virginia, and West Virginia. In addition, NTELOS’s approximately 297,500 subscribers, along with wireless network equipment and other assets, would be transferred to Shentel as part of the proposed transaction.² On October 30, 2015, the Commission accepted the applications for filing and established a pleading cycle for the proposed transaction.³

In connection with the Commission’s review of the proposed transaction, the Commission intends to examine information contained in the biannual Numbering Resource Utilization and Forecast (“NRUF”) reports filed by wireless telecommunications carriers,⁴ carrier-specific local number portability

¹ 47 U.S.C. §§ 214, 310(d).

² See Application of NTELOS Inc. and SprintCom, Inc. for Consent To Assign Licenses, ULS File No. 0006917154, Ex. 1 (filed Aug. 25, 2015; amended Nov. 10, 2015). The Applicants have designated this application as the lead application.

In addition to these AWS-1, BRS, PCS, and microwave licenses, the Applicants propose to assign or transfer control of spectrum leasing arrangements and separately have applied for consent to the transfer of control of an international section 214 authorization. See SprintCom, Inc., Shenandoah Personal Communications, LLC, and NTELOS Holdings Corp. Seek Consent to the Assignment of Licenses and Spectrum Lease Authorizations and to the Transfer of Control of Spectrum Lease Authorizations, WT Docket No. 15-262, *Public Notice*, DA 15-1236 (WTB rel. Oct. 30, 2015) (“*Comment Public Notice*”).

(“LNP”) data related to wireless telecommunications carriers, and further disaggregated monthly carrier-specific local number portability data (“Carrier-to-Carrier LNP Data”) related to wireless telecommunications carriers. These data may assist the Commission in assessing the competitive effects of the transaction. Accordingly, subject to the provisions of a protective order (“NRUF Protective Order”) being adopted this day,⁵ the Commission intends to place into the record in this proceeding:

- NRUF reports for all wireless telecommunications carriers concerning data as of June 30, 2012, December 31, 2012, June 30, 2013, December 31, 2013, June 30, 2014, December 31, 2014, and June 30, 2015 (when available).
- Wireless-to-wireless LNP data for all wireless telecommunications carriers from the June 30, 2012, December 31, 2012, June 30, 2013, December 31, 2013, June 30, 2014, December 31, 2014, and June 30, 2015 (when available) LNP databases that the Commission receives from the LNP Administrator, NeuStar, Inc. This LNP data shows the total number of ports in and ports out per carrier.
- Wireless-to-wireless Carrier-to-Carrier LNP Data for all wireless telecommunications carriers, on a monthly basis, from the June 2012 to December 2014 LNP databases (and any updates that may become available during the pendency of the Commission’s review of the Applications) that the Commission receives from the LNP Administrator, NeuStar, Inc. This LNP data shows, on a monthly basis, the specific number of ports from each wireless carrier to another carrier in each area.

Section 251 of the Communications Act grants the Commission jurisdiction over the North American Numbering Plan (“NANP”) and related telephone numbering issues.⁶ To monitor better the way numbering resources are used within the NANP and allocate NANP resources efficiently, the Commission requires telecommunications carriers to provide the Commission with a utilization report of their current inventory of telephone numbers and a five-year forecast of their numbering resource requirements.⁷ LNP data are collected by the LNP Administrator and provided to the Commission.

The Commission has recognized that disaggregated, carrier-specific forecast and utilization data should be treated as confidential and should be exempt from public disclosure under 5 U.S.C. § 552(b)(4).⁸ The NRUF and LNP reports will be placed into the record subject to the provisions of the NRUF Protective Order. As such, the NRUF and LNP data will not be available to the public except pursuant to the terms of the NRUF Protective Order, as outlined below.

Persons seeking to review the NRUF or LNP data may do so only for purposes of participating in this proceeding. Pursuant to the NRUF Protective Order, outside persons participating or intending to participate in the proceeding who are not involved in competitive decision-making activities and who have signed the Acknowledgment of Confidentiality attached to the NRUF Protective Order may review the NRUF and LNP data. We emphasize that persons seeking to review the NRUF or LNP data must have adequate protections in place to prevent improper use or disclosure of the information.
